

Mendham Borough

2021 Fall Foliage Photo Contest

Everyone knows about the Spring flowers of a Cherry Tree, but have you noticed Cherry Trees have a crisp yellow orange Fall color? Some people consider the unusual leaves of the Ginko Tree to have the most beautiful Fall color, a clear bright yellow that persists for weeks and then one day in November, all the leaves drop. The Sugar Maples are famous for burnt orange and peach foliage. Dogwood, Oak, Locust, Elm and Beech trees make Autumn spectacular!

Often, we witness beautiful sights that are more worthy of attention. This is a call to put down the Latte, pick up the camera and take notice of the foliage show that is taking place right in front of us.

Whoever sends in the best picture of a Mendham Borough tree(s) will win a tree, of their choice, to be planted in front of their home! Pictures can include family, friends, pets, cars, bicycles and more! Be creative but remember the main subject should be trees.

Spread the word and send a picture of your favorite tree(s) in the Borough with its location to dpw@mendhamnj.org, attention Carolynn Budd today. Contest ends October 31, 2021.

Before long the cold chill of Winter will be upon us. Take a picture today and send it in!

Be safe and have fun!
