

OPENING A BUSINESS

We thank you for considering Mendham Borough as the new home for your business. Before you confirm your plans, we invite you to explore our process, ordinances and requirements. It can save both time and money to do so in advance.

Every business moving into Mendham Borough requires an approval by the Joint Land Use Board depending on the nature of what one is trying to do. Mendham Borough also has regulations associated with its Historic District and Main Street Corridor. Working with us can help you understand quickly which ordinances and requirements may impact you.

The first step is to understand the requirements and the contacts that can help you navigate the process. The first two key contacts are the Zoning and Land Use Departments. Please visit their webpages located under Departments & Services. You will not only find names and contact numbers, but also links to other areas of the website that might provide preliminary answers to some of your questions. You should also visit the [Borough Code](#) and review pertinent ordinances.

After your review of the information, please call, email, or schedule an appointment to discuss details on the process that should be followed and the required applications that need to be filed for your project.

Thank you for considering Mendham Borough. We look forward to working with you!

Lisa Smith
Planning & Land Use Coordinator
Borough of Mendham
