“Tim and his staff at Green Vision Inc. have created a program like I have never seen. They can handle all of the equipment that the big companies do, and use it to provide training and employment for their students. We have enjoyed working with them and would recommend them to anyone!”

– Bob Kimpland, Director of Information Services, Garden State Multiple Listing Services

“We have been very happy with the service Green Vision Inc. provides us in the recycling of computer and electronic equipment. Their staff has always been on time, courteous, and professional.”

- Carmen DeRosa, Owner, PC Problems, Madison, NJ

GreenVision Inc.®

ELECTRONICS RECYCLING

ISO 14001:2004

BS OHSAS: 18001:2007

CERTIFIED

**Responsible™
Recycling**

Dismantling the stigmas of people with developmental disabilities.

Enhance a Life. Save the Planet.

Recycle your old electronics today.

Our Mission

Green Vision was created to provide students and adults with developmental disabilities the opportunity to learn and work in real life job situations.

- Environmental Protection
- Social Equity
- Economic Benefit

What We Do

- Train and employ developmentally disabled students and adults in the practice of dismantling and recycling unwanted electronics(e-waste)
- Converts waste from local residents and corporate partners into re-usable materials such as copper and aluminum.
- Participants develop problem –solving skills as they disassemble e-waste and sort components for recycling.
- Instill pride and independence in the participants, providing them a means to earn money while learning transferrable skills.
- Continue to enhance educational skills gained throughout life in the classroom and improve functionality and socialization.

Green Vision works with schools, municipalities, Fortune 500 companies, small to medium size business, and medical institutions. Contact us to see how you or your company can get involved.
